* The Armourers and Brasiers' Company was founded in 1332 and has occupied the same site in the City of London since 1346. The Company hires out the various rooms in the Armourers' Hall which is a stunning blend of 16th and 17th century armour and paintings. Initially representing craftsmen involved in armour and brass working, the Company is now a leading charity supporting metallurgy and materials science education.

** Co-author of the Charles Hatchett Award Winning Paper 2010.
